

THE DECISION IN FRONT OF YOU

Put your VVV to work building an economy of AI businesses — and earn VAI for helping power it.

Vvvroom turns deposited VVV into productive inference capacity. The capacity runs AI businesses, VVV staking rewards fund their growth, and participants earn VAI. At TGE, you get back all the VVV you deposited.

Your seed-round earning curve

Even February's 5-Point rate matches the initial post-TGE earning level only with a 36-month lock at the 5x accelerator. September earns three times that level.

What happens to your VVV

You deposit VVV during the seed round. Vvvroom deploys it through Venice, creating **DIEM-backed inference capacity** that runs the economy's AI businesses.

The position also earns **VVV staking rewards**. Vvvroom uses those rewards to fund go-to-market execution and marketing that drive business growth.

At TGE, you get back all the VVV you deposited. Deposit 100,000 VVV and you get back 100,000 VVV.

Why join during the seed round

Earn the highest published rates. Receive 5–15 Points per VVV-day before TGE.

Earn 10% from direct referrals. Share your referral link before a friend's first deposit; they keep every Point they earn.

Receive the participant-first launch allocation. Participants receive 80% of the TGE mint.

Claim your complete allocation. Ten eligible Points convert to 1 VAI, and 100% is claimable at TGE.

Get all of your VVV back at TGE. Deposit 100,000 VVV and you get back 100,000 VVV.

SEED-ROUND TARGET 1,000,000 VVV	MAXIMUM CAPACITY 10,000,000 VVV	CONVERSION 10 Points = 1 VAI	TARGET TGE March 1, 2027
---	---	--	------------------------------------

At TGE: convert, claim, choose and trade

01 · CONVERT Points become VAI Eligible base and Referral Points convert together.	02 · CLAIM Claim 100% Your complete participant allocation is claimable for 24 months.	03 · CHOOSE Take back your VVV or keep earning Withdraw all the VVV you deposited or enter a new qualifying lock.	04 · TRADE Buy or sell VAI Trade VAI/VVV on Base as Vvvroom works toward centralized-exchange listings.

THE ASK

Earn the seed-round advantage before TGE.

Deposit at app.vvvroom.ai. Seed-round deposits are open now under the published monthly schedule.

KEEP EARNING AFTER TGE

Lock VVV, earn VAI directly, and choose the commitment that fits you.

After TGE, 100% of new VAI issuance goes to network participants through qualifying VVV locks. Longer locks earn larger accelerators, and the terms you accept stay fixed for the full lock.

Your post-TGE earning formula

$$VAI \text{ per day} = VVV \text{ locked} \times \text{accepted base rate} \times \text{accepted lock accelerator}$$

Your VVV quantity, accepted rate and accelerator determine what you earn.

How participant value continues after launch

01	100% participant issuance	Every newly issued VAI goes to participants through qualifying VVV locks.
02	Base decentralized exchanges	The fixed 5% protocol allocation pairs with company-owned VVV to open VAI/VVV trading on Base.
03	Centralized-exchange path	Vvrroom works toward listings at TGE or afterward using company cash and market-purchased Reserve VAI.
04	Market-built Treasury Reserve	Vvrroom buys VAI from existing holders with available company capital.
05	Participant voice	Staked VAI gives participants a future voice in which AI businesses Vvrroom incubates and supports.

What your VVV helps power

Inference capacity runs six AI businesses today. Each business adds tools and operating evidence that make the next one faster to build.

Web Factory	Productized websites and recurring hosting · 130 real sites rebuilt · live revenue	RealOS	AI operating system for real-estate agents · launching soon
App Factory	Owned software products and custom builds · live	3Webseiten.de	European websites, AI agents and hosting · live revenue
AI or Die	Agent strategy, build and deployment consulting · live revenue	Privocio	Private speech-to-text and agent automation · developing
