vvvroom.ai

AN ECONOMY, NOT A COMPANY · BUILT ON Venice

VAI Tokenomics Summary

V1.8

THE NETWORK TOKEN

Lock VVV, earn Points and claim VAI while your VVV powers productive AI businesses. VAI rewards network participation and gives stakers a voice in which future AI businesses Vvvroom should incubate and support.

THE LAUNCH MINT

80% of VAI goes to participants.

80% PARTICIPANTS | 15% | 5%

80% PARTICIPANTS 15% VVVROOM TEAM 5% PROTOCOL-OWNED LIQUIDITY

Participants claim 100% of their allocation at TGE and have 24 months to claim it. Vvvroom team VAI vests over four years. The fixed 5% opens VAI/VVV trading on decentralized exchanges on Base.

At the 1M VVV seed-round target, the complete schedule plus fully earned referral rewards produces 302.39M participant VAI within a 377.9875M total TGE mint.

The lifecycle

1. ***Before TGE - Points per VVV-day***

15	13	11	9	7	5
POINTS · SEP	POINTS · OCT	POINTS · NOV	POINTS · DEC	POINTS · JAN	POINTS · FEB

2. ***Earn 10% from direct referrals***
Share your referral link before a friend's first deposit. As they earn eligible base Points, you earn 10% as Referral Points. They keep every Point they earn.

3. ***At TGE - Convert, claim and redeem***
Ten eligible Points convert to 1 VAI. The full allocation becomes immediately claimable, and the same VVV quantity becomes redeemable.

4. ***After TGE - 100% to participants***
Points stop. **100% of new VAI issuance** goes to network participants through qualifying VVV locks.

5. ***Power businesses and build the market***
Inference runs Vvvroom's businesses, VVV rewards fund growth, and company capital purchases VAI from existing holders.

AT A GLANCE

TARGET TGE	March 1, 2027
CONVERSION	10 Points = 1 VAI
SEED-ROUND TARGET	1M VVV · acceptance to 10M capacity
PARTICIPANT CLAIM	100% at TGE · 24-month window
POST-TGE ISSUANCE	100% to participants through qualifying locks
MARKET ACCESS	Base DEX at TGE · CEX work at TGE or afterward

POST-TGE EARNING

VVV × days × base rate × accelerator

Your accepted offer stays fixed for the full lock.

How each asset works

ASSET	WHAT IT DOES	PARTICIPANT BENEFIT
VVV	The asset participants lock to create productive capacity through Venice.	Earn Points and retain the same redeemable VVV quantity.
Points	The accounting unit for eligible participation before TGE.	Convert to VAI at 10 Points to 1 VAI.
VAI	The reward and coordination token for VVV network participation.	Claim network rewards and stake to vote after TGE.
Treasury Reserve	VAI Vvvroom purchases from existing holders with company capital.	Creates ongoing market demand as the businesses grow.

1. Participants lock VVV
Accepted commitments create the productive base.

→

2. Venice creates two outputs
Inference runs the businesses; staking rewards fund growth.

→

3. Businesses grow
Go-to-market and marketing turn capacity into customers.

→

4. Vvvroom buys VAI
Market purchases build the Treasury Reserve.

VAI Market & Mechanics

V1.8

KEEP EARNING AFTER TGE

100% of new VAI issuance goes to network participants through qualifying VVV locks. Choose a published rate and accelerator; your accepted terms stay fixed for the full lock.

How participants earn after TGE

YOUR POST-TGE EARNING FORMULA

VVV locked (YOUR QUANTITY) × ***Eligible days*** (YOUR LOCK ACTIVITY) × ***Base rate*** (PUBLISHED FIRST) × ***Accelerator*** (FIXED FOR THE LOCK) = ***VAI earned*** (100% PARTICIPANT ISSUANCE)

LOCK ACCELERATORS

1.5×	2×	3×	4×	5×
3 MONTHS	6 MONTHS	12 MONTHS	24 MONTHS	36 MONTHS MAXIMUM ACCELERATOR

How VAI reaches the market

AT TGE · DECENTRALIZED EXCHANGES

5% opens VAI/VVV trading on Base

The fixed protocol-liquidity allocation pairs with company-owned VVV on one or more decentralized exchanges.

AT TGE OR AFTERWARD · CENTRALIZED EXCHANGES

Vvvroom works toward CEX listings

Company cash and market-purchased Reserve VAI can fund listing, inventory and liquidity arrangements.

How Vvvroom buys VAI

Company capital buys VAI from existing holders and builds the Treasury Reserve over time.

1 · BUILD CAPITAL

Retained VVV rewards

VVV staking rewards retained after growth spending become purchasing capital.

2 · ADD CASH

Business cash + revenue shares

Retained operating cash and collected revenue shares can add buying power.

3 · BUY VAI

Market purchases

Vvvroom buys existing VAI from willing holders through market venues.

4 · BUILD THE RESERVE

Hold and deploy

Purchased VAI can support exchange access, partnerships and network growth.

RATE-SETTING

Published first. Fixed for your lock.

Every offer shows the base rate, term and accelerator used to calculate VAI.

TERMS STAY FIXED

PARTICIPANT ISSUANCE

100% goes to network participants

New VAI is issued through qualifying VVV locks, with initial capacity of **10M VVV**.

100% PARTICIPANT ISSUANCE

TGE delivery

Participant claims	Claim 100% of your VAI when the claim contract opens, with a 24-month claim window.
Referral Points	Base and Referral Points convert together at 10 Points to 1 VAI.
Opening market	The VAI/VVV ratio and Base decentralized-exchange venues are announced near TGE.

After launch

At maturity	Redeem the same VVV quantity or choose a new lock under the latest published terms.
Governance	Stake VAI to vote on future AI businesses and network programs.
Market access	Vvvroom works with centralized exchanges at TGE or afterward.

Start earning Points now

Put your VVV to work before TGE at **app.vvvroom.ai**. Earn Points, invite direct referrals and follow your progress in the participant dashboard.
